Class – Creation VS Evolution

Term –February 24, 2018 to March 24, 2018

Instructor – Mark Wilson

Delivery – Saturdays 8:30 Am to 12:30 PM – SAC Building at Lancaster Bible College

Course Description — Creation vs Evolution

Join us on an interesting travel through space and time, past, present, and future. We will discuss the scientific view of creation and evolution and review questions like: What does the Bible say about creation? What does the Bible say about evolution? What are scientific facts supporting evolution? Was there a big bang and how did it start? Did God use evolution for His creation?

Did dinosaurs walk the earth? Was there really a global flood, or was it merely billions of years of evolution? What is meant by Intelligent Design/ Do the cosmos tell a different story?

With churches and schools teaching evolution as a fact and creation as a bed time story, it is time we take notice.

Course Prerequisites – Prior to the first class, Read in your preferred translation Genesis Chapters 1-5. Read the first 3 chapters in the Optional textbook: "*The Biblical Basis for Modern Science, Henry M. Morris*"

Course Objectives – As a result of this course the student will gain the following:

1. Students will gain an understanding of **Creation and Evolution**
2. Students will gain an understanding of God's process of creation
3. Students will gain an understanding of how to thoughtfully explain creationism to skeptics

Course Requirements - **Students must attend at least 4 of the 5 classes to receive 2 CEU's**

Assignments:

Though this is not a "PASS-FAIL" course students are expected to complete the reading assignments and study notes as required by the instructor.
