

SERVE FROM HOME

Ideas to Empower Your Church Like Never Before

1 USE YOUR TALENT

Call on the writers in your church to help create devotions and encouraging content, call on the artists to create new pieces of hope that you can share visually online, as street signs, or murals. Ask musicians to help write new music to lift spirits. Invite stay at home moms to use their expertise by hosting activities for kids to make a difference. Identify the many talented people in your church and think of ways to empower them to shine!

2 BE A FREE COURIER SERVICE

Form a Facebook Group where small groups or church members can nominate people in need of help picking up groceries, medications, or any other needs. Then empower your church members to respond.

3 KIDS+SENIORS

Many seniors are being confined to their rooms in nursing homes. Get your kids involved in making cards and putting together activity bags to encourage residents during this time. (If possible, ask for names of the residents to make it personal.)

4 PRAYER WALK

Getting outside and soaking up sunshine is a great idea these days especially. Encourage your church members to go for a walk and spend time in PRAYER. (Another fun activity to get kids involved is to let them paint rocks with kinds words to leave along the path.)

5 GET ON THE PHONE

Sometimes the best way to serve is by listening. Ask church members to help make phone calls checking on seniors, single moms, students, and anyone who may just need a shoulder to lean on and talk through things with. (A team at Elevation Church is even making calls to people in Italy and around the world.)

6 DONATE BLOOD

If your church members are healthy and able, a great way to make a difference is by donating blood to the local blood bank. Red Cross and others have expressed that this is a great need currently.
